

# RISK MANAGEMENT . . .

## Adventure Playground

SITUATED: North side of main camp down the hill

RISK DETAIL	LIKELY INJURY OR ILLNESS	OCCURRENCE PROBABILITY	RISK CONTROL
Falling onto the ground	Bruises, cuts, concussion, fractures	1	<ul style="list-style-type: none"> <li>Caution to be taken.</li> </ul>
Rope breaking on swing	As above	1	<ul style="list-style-type: none"> <li>Area and equipment to be well maintained.</li> </ul>
Spectator hit	As above	3	<ul style="list-style-type: none"> <li>Keep spectators clear of swing.</li> </ul>
Limbs caught in rope ladder	Grazes, bruises	1	<ul style="list-style-type: none"> <li>Caution to be taken.</li> </ul>

### Supervisor's Instructions

- Children under 8 must be supervised.
- Only two people allowed on rope at one time.

### KEY TO OCCURRENCE PROBABILITY

This key is used in determining the probability of an accident/injury/illness occurring in any of the activities made available to paying groups or organisations who use these facilities.

- It is always possible but has not happened here.
- Has happened but not here.
- Has happened here; No/or minor injury; Is likely to happen again. (see note 1)
- Has happened here; No/or minor injury; Not likely to happen again. (See note 2)
- Has happened, is likely to happen again; No injury
- Has happened, serious/fatal injury.

NOTE 1: Due to the nature of some activities/events injuries will be unavoidable, e.g. contact sports. Every endeavour will be made as can be seen throughout the Risk Management Plan, to ensure that this is minimised.

NOTE 2: Accidents with injuries have occurred on these events but tighter controls and stricter monitoring, and in some instances the elimination of part of an event has ensured continual safety.
