

RISK ANALYSIS MANAGEMENT PLAN

Activity	Animal Survival	Date	October 09
Location	Living Springs	Other	Grant Whitehead
Hazards	Significance (1=minor, 2=major, 3=life changing)	Eliminate/Isolate/Minimize	
Onga Onga	Yes 1	Minimize/Eliminate	
Slippery Track	Yes 2	Minimize	
Vehicles	Yes 2	Minimize/Isolate	

SITUATED: Surrounding area of main camp

RISK DETAIL	LIKELY INJURY OR ILLNESS	OCCURRENCE PROBABILITY	RISK CONTROL
Falling out of trees	Bruises, cuts, concussion, fractures	1	<ul style="list-style-type: none"> Extra caution to be taken.
Contact with Onga Onga	Stings, swelling	3	<ul style="list-style-type: none"> Children to be shown Onga Onga plant and told to keep away from it.
Tripping	Bruise, cuts	3	<ul style="list-style-type: none"> Ensure correct footwear is worn
Sunburn	Burns, blisters	3	<ul style="list-style-type: none"> Advise participants to wear a hat and sunscreen.
Asthma	Lack of breath	3	<ul style="list-style-type: none"> Children with medical conditions to take extra care.

Supervisor's Instructions

- Not necessarily supervised area.
- Boundary areas to be specified.
- Children not to wander through the bush that is not included in the specified area for the game. Must follow instructions of supervisor.

Operating Instructions

- Correct footwear to be worn.
- Monitor playing time and condition/exhaustion level of players.
- Must have adequate knowledge of rules and risks involved.

KEY TO OCCURRENCE PROBABILITY

This key is used in determining the probability of an accident/injury/illness occurring in any of the activities made available to paying groups or organisations who use these facilities.

- It is always possible but has not happened here.
- Has happened but not here.
- Has happened here; No/or minor injury; Is likely to happen again. (see note 1)
- Has happened here; No/or minor injury; Not likely to happen again. (See note 2)
- Has happened, is likely to happen again; No injury
- Has happened, serious/fatal injury.

NOTE 1: Due to the nature of some activities/events injuries will be unavoidable, e.g. contact sports. Every endeavour will be made as can be seen throughout the Risk Management Plan, to ensure that this is minimised.

NOTE 2: Accidents with injuries have occurred on these events but tighter controls and stricter monitoring, and in some instances the elimination of part of an event has ensured continual safety.
