

RISK MANAGEMENT . . .

Electric Go Karts

Activity	Electric Go Karts	Date	October 09
Location	Living Springs	Other	
Hazards	Significance (1=minor, 2=major, 3=life changing)	Eliminate/Isolate/Minimize	
Tyres	Yes 1	Minimize	
Go Kart	Yes 2	Minimize	
Uneven ground	Yes 1	Minimize	

SITUATED: North side of camp, down the hill

RISK DETAIL	LIKELY INJURY OR ILLNESS	OCCURRENCE PROBABILITY	RISK CONTROL
Hitting a spectator	Bruises, cuts, fractures, concussion	1	<ul style="list-style-type: none"> Make sure spectators are kept well back from track.
Hitting a wall	Bruises, cuts, fractures, concussion	5	<ul style="list-style-type: none"> Clear instructions given. Advise participants not to drive too fast and dangerously.
Losing control and rolling	Bruises, cuts, fractures, concussion	3	<ul style="list-style-type: none"> Extra caution to be taken when wet. Go Kart helmets and seat belt to be worn at all times. Fire Extinguisher to be kept down at Go Karts in case of emergency.

Supervisor's Instructions

- To be supervised by a Living Springs staff member or someone trained.
- Maximum of one person per Go Kart.
- Spectators to be kept behind the barrier.
- Shoes must be worn—no open toed shoes.
- Long hair and loose clothing to be tied back.
- All objects and people to be moved off track.

Operating Instructions:

- Helmets and seat belts to be buckled before taking
- No children to cross Go Kart track.

KEY TO OCCURRENCE PROBABILITY

This key is used in determining the probability of an accident/injury/illness occurring in any of the activities made available to paying groups or organisations who use these facilities.

- It is always possible but has not happened here.
- Has happened but not here.
- Has happened here; No/or minor injury; Is likely to happen again. (see note 1)
- Has happened here; No/or minor injury; Not likely to happen again. (See note 2)
- Has happened, is likely to happen again; No injury
- Has happened, serious/fatal injury.

NOTE 1: Due to the nature of some activities/events injuries will be unavoidable, e.g. contact sports. Every endeavour will be made as can be seen throughout the Risk Management Plan, to ensure that this is minimised.

NOTE 2: Accidents with injuries have occurred on these events but tighter controls and stricter monitoring, and in some instances the elimination of part of an event has ensured continual safety.
